## **Fullerton Avenue improvements in Franklin Park**

**CHICAGO** – The Illinois Department of Transportation announced today that a drainage improvement project on Fullerton Avenue, just west of Sarah Street to just east of Silver Creek Drive, in Franklin Park, will require daytime lane closures, beginning, weather permitting, Monday, June 29.

The project, which includes installing new storm sewers, constructing new ADA-compliant sidewalk ramps, replacing deteriorated curbs, installing sod and erosion control, is expected to be completed in October.

Starting this week, preliminary work will get underway. Motorists should expect daily, intermittent shoulder closures with occasional lane closures leading up to construction.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
